IN THE UNITED STATES PATENT OFFICE

SEP 2 0 2004

Serial No. 10/633,377

Filed: 8/4/2003

Invention: Infant Reflux Mattress Suspense:

Art Unit 2632

System and Red

Inventor: Smart

Examiner: Santos, Robert G.

ELECTION

Commissioner of Patents

Washington, D.C. 20231

Dear Sir:

Responsive to the Office Action mailed 9/13/04, APPLICANT ELECTS Species 2, Figures 2-5 with traverse under 35 U.S.C. 121, and Claims 4 through 21 related thereto. It is felt that the restriction is improper as the embodiment of Species 1 covered by Claims 1 through 3 is sufficiently related to the embodiments of Species 2 covered by Claims 4 through 21 so as to not constitute separate inventions where both are dependent on mattress side posts positioned along the sides of an infant lying on an angled mattress suspended via a strap system attached to the side posts.

If the Examiner's requires further comments, a telephonic conference is requested.

Dated this 20th day of September 2004.

Marcus G. Theodore Attorney for Applicant Reg. No. 26, 815 466 South 500 East Salt Lake City, Utah 84102 (801) 359-8622
